

6th annual Conference in Philosophy & Biology

CHANCE IN EVOLUTION

I am inclined to look at everything as resulting from designed laws, with the details, whether good or bad, left to the working out of what we may call chance.

- Charles Darwin

April 6th-8th, 2007

Duke University

Durham, NC

Speakers

- *Richard Lewontin (Harvard)
The Role of Chance in the Evolutionary Occupancy of Phenotypic Space
- *Werner Callebaut (Konrad Lorenz Institute)
Contingency and Inherency in EvoDevo
- *William Provine (Cornell)
Random Genetic Drift: A Critique in Historical Perspective
- *Roberta Millstein (UC Davis)
Demonstrating Chance in Evolution: Lessons From an Early Drifter
- *John Beatty (University of British Columbia)
The Details Left to Chance
- *Robert Brandon (Duke)
Drift Driven Diversification
- *Steve Wang (Swarthmore)
Markov Monte Carlo: Taking Advantage of Chance

and more...

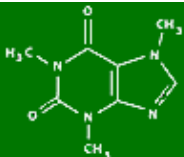

Conference Registration

Please register for the conference by sending an email to haufe@duke.edu with "attending" in the subject line. No registration fee is required.
